

MIMANSA NARENDRA PATLE

Full-Stack Developer

mimansapatle@gmail.com | Nagpur, Maharashtra, India

Portfolio: mimansapatle.vercel.app | GitHub: [MimansaPatle](https://github.com/MimansaPatle) | LinkedIn: [mimansa-patle](https://www.linkedin.com/in/mimansa-patle)

CAREER OBJECTIVE

Computer Science Engineering undergraduate with hands-on experience in full-stack web development using React, Next.js, Node.js, and MongoDB. Built multiple real-world projects and completed internships, gaining practical experience in frontend, backend, APIs, and databases. Possess a solid understanding of core computer science concepts, including Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), and Computer Networks (CN). Seeking an entry-level software developer role to build scalable, high-quality software solutions.

EDUCATIONAL QUALIFICATIONS

Degree	Institution	Duration	CGPA
B.Tech, Computer Science Engineering	Raipur Institute of Technology	2023 – 2027	8.34/10
Expected Graduation: 2027			

TECHNICAL SKILLS

Databases: MongoDB, MySQL (SQL), DBMS Fundamentals

Programming Languages: C, Java, Python, JavaScript

Frontend: HTML5, CSS3, React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Software / Tools: Git, GitHub, VS Code, Postman

ACADEMIC PROJECTS

CivicWatch India — Civic Issue Reporting Platform | React 19, React Router 7, Vite, , Node.js, Express 5, MongoDB Atlas

- Developed a full-stack civic issue reporting platform that enables users to report civic concerns such as illegal garbage dumping, public spitting, and stray dog feeding by uploading images (stored on Cloudinary via Multer) and sharing their live location on an interactive Leaflet map. Implemented JWT-based authentication with bcryptjs password hashing, express-validator input validation, issue status tracking, geospatial clustering/heatmaps, and an admin dashboard for efficient complaint management and resolution.

PrepAI — AI Interview Preparation Platform | Next.js 16, React 19, Tailwind CSS, Next.js API Routes, MongoDB Atlas (Mongoose)

- Built an AI-powered interview preparation platform with secure Auth.js authentication, role-based mock interviews powered by the Google Gemini API, personalized feedback, interview history, downloadable PDF reports (React PDF), and a responsive dashboard. Designed and developed the frontend, backend API routes, authentication, and MongoDB integration for a seamless interview preparation experience.

URL Shortener — Full-Stack Web Application | Next.js, React, Tailwind CSS, Next.js API Routes, MongoDB

- Developed a full-stack URL shortener that allows users to create custom short URLs for long links, with persistent storage in MongoDB and seamless redirection to the original URL. Designed and implemented the API routes, database schema, and the complete frontend and backend application independently.

Personal Developer Portfolio — Portfolio Website | Next.js 16 (App Router, Turbopack), React 19

- Personal portfolio website showcasing projects, skills, and experience with a clean, responsive design and smooth Framer Motion animations; built entirely from scratch using TypeScript and a CSS-first Tailwind v4 configuration (@theme, no tailwind.config.js), with Space Grotesk and Anton fonts loaded via next/font/google, and deployed on Vercel.

INTERNSHIP / WORK EXPERIENCE

Web Development Vocational Training — Node.js/Backend — Rays IT & Design World Pvt. Ltd.

Jun–Jul 2026

- Completed a one-month training covering Node.js, Express.js, RESTful APIs, and MongoDB; submitted the CivicWatch India project as the capstone. *Technologies: Node.js, Express.js, MongoDB, REST APIs.*

Full-Stack Web Development Intern — Prodigy InfoTech (Remote)

Feb 2026

- Developed responsive web interfaces using HTML, CSS, and JavaScript; assisted in backend development and API integration. *Technologies: HTML, CSS, JavaScript, Responsive Design, API Integration.*

Web Development Vocational Training — Infynas Learning Solutions

Aug 2025

- Completed vocational training in modern web development; built a full-stack URL Shortener using Next.js, Node.js, and MongoDB.
Technologies: Next.js, Node.js, MongoDB, REST APIs.

Web Developer Intern — Codec Technologies

Apr 2025

- Worked on web development fundamentals and gained exposure to industry practices and professional workflow. *Technologies: HTML, CSS, JavaScript, Git/GitHub.*

CERTIFICATIONS & ACHIEVEMENTS

- IBM Full Stack Web Development — Coursera (In Progress)
- Web Development Vocational Training — Infynas Learning Solutions, Aug 2025
- Web Developer Internship Certificate — Codec Technologies, Apr 2025
- Gold Certificate — Digital Application Fundamentals (STEM Certification), Score: 88.25%
- Completed 2+ professional internships and vocational training programs alongside B.Tech coursework
